

## **AutoTrader.com Enables Dealers to Highlight Affordability with New Promote By Payment and Automated OEM Specials**

**New Solutions Provide Highly Visible Way for Dealers to Advertise Monthly Payment Options and Include OEM Specials in Online Listings.**

ATLANTA, Feb. 9, 2011 [/PRNewswire/](#) -- AutoTrader.com is making it easier for dealers to speak the language of affordability with two new solutions being released nationwide today: Promote by Payment and Automated OEM Specials. Promote by Payment is designed to make monthly lease and purchase payment options more visible in dealers' listings, and Automated OEM Specials streamlines the process of incorporating incentives and rebates offered by OEMs into online listings.

According to the most recent Shopper Segmentation Study conducted by AutoTrader.com, over 80% of in-market shoppers find it important to stay within a set budget when shopping for a vehicle. These two new solutions will help dealerships better merchandise their vehicles based on cost, thereby attracting more qualified buyers.

"Affordability is the entry point for most serious car shoppers," said AutoTrader.com President and CEO, Chip Perry. "No matter how perfectly a car may suit their needs, the decision to purchase comes down to whether they can make the payments. AutoTrader.com provides numerous tools to help shoppers determine a realistic car budget, and we are now providing easy and highly visible ways for dealers to advertise cars based on the monthly cost. With these tools, shoppers can know at a glance if the cars they want will fit their budgets, and dealers can attract shoppers that are one step closer to signing on the dotted line."

Promote by Payment is a multifaceted tool that enables dealers to define up to six monthly payment options — for leasing and for purchasing. This information will appear on the search results page and the vehicle details page for new and used cars listed on AutoTrader.com. On the search results page, a horizontal strip will appear at the bottom of the listing that highlights the best overall offer, the best lease payment and the best monthly purchase payment. On the vehicle details page, the best offer will be highlighted at the top, and up to six other offers will appear in a special section below the multimedia viewer.

The Automated OEM Specials feature offers dealers a faster and easier process to get OEM rebates and incentives to appear in their listings.

Dealers who utilize this solution will automatically receive a daily feed of relevant specials, and they can select which ones to apply to their online inventory listings with just a few clicks.

"The importance of advertising incentives and rebates offered by OEMs cannot be overlooked — especially with today's automotive landscape where the dearth of used car inventory has resulted in higher prices for pre-owned cars," Perry continued. "For some models, a new vehicle with an attractive rebate and financing offer may be a better deal than a similar one that is a couple of years old. Giving dealers an easy and effective way to incorporate this information into their online listings enables them to entice shoppers who may be sitting on the fence between buying a new or used car."
