

Autotrader Names Must-Shop Certified Pre-Owned Vehicles for 2018

ATLANTA, Jan. 30, 2018 /PRNewswire/ -- Shoppers interested in a new car might be disappointed to discover that many new models are beyond their budget, especially as you add options and extras for comfort, safety and convenience. A used car seems like the next best option; however, consumers could be turned off by potentially high maintenance and repair costs associated with used vehicles. To narrow down the list of used cars with many of the perks of a new model, Autotrader's expert editors today name the [10 Must-Shop Certified Pre-Owned Cars](#) and [10 Must-Shop Certified Pre-Owned Luxury Cars for 2018](#) that they consider to be "good as new."

"This list of 'good as new' models offer the latest design, meaning your friends and neighbors will think you bought a brand-new model, even though you saved money on a Certified Pre-Owned car," said Brian Moody, executive editor for Autotrader. "Aside from being affordable, each car on the list includes a desirable, manufacturer-backed warranty, which means these selections come without many of the traditional costs (or fears) associated with a typical used car."

There are many advantages to purchasing a Certified Pre-Owned (CPO) vehicle, including a comprehensive inspection to ensure the car in question doesn't have any serious defects or problems and a warranty that provides buyers with peace of mind in the event a future repair is needed. Customers get the confidence of a new-car experience without the extra cost and instant depreciation of value.
